Dear Mr. Anderson:

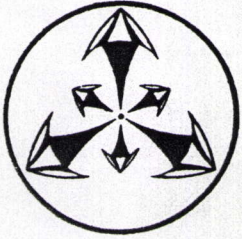

This letter is to confirm for your files that your Lower #1 Claim and your Wet Boot #1 Claim are not within the Mt. Hillers WSA as we originally thought they might be. Your mining supervisor Dennis Garver pinpointed the locations for us and we were in error on our assumption that they were in a WSA.

Thank you for your cooperation in this matter.

Sincerely,

**ACTING** *Larry J. Gearhart*  
Area Manager

Proposed Operations

This is a notice that we intend to commence a study of the attached 17 Placer Claims between June 15th and October 30th, 1981. Our study will consist of the following operations.

1. Soil sampling - panning & assay's
2. Some trenching with a loader or by hand and sampling thru a small trammel.

Access Routes

We plan to use existing old claim roads or cattle roads which are accessible off of Garfield County roads.

Proposed Reclamation

Upon completion of sampling and trenching, we will where practical reshape the ground that we have disturbed to the approximate contour of the surrounding ground.

Areas of Past Disturbance

There has been some trenching on the Gates Gold and Wet Boot Claims prior to January 1, 1981. There are also several old claim roads in existence and one in to the old Gates Cabin site.

Claim Information

Lower # 1, Garfield County, Utah  
Reference UMC 211078  
Section 6, T - 33 So. R 12 East

Description of Activities

This claim is at the base of the Farmers Knob Mine and contiguous to our Blitz & Trachyte Claims. A minimal amount of work will be done on this claim and may consist of some drilling and/or geological workup. If there is any ground disturbance, we will reshape to the approximate contour of the surrounding ground. Existing roads will be used. Surrounding area to be disturbed is less than 5 acres.

Areas of Past Disturbance

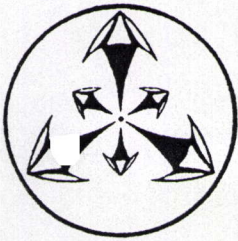

Prior to January 1, 1981 there has been extensive mining in the area of this claim. Old roads, old mines and an ore loading area are on this claim.

Proposed Operations

The assessment work for this group of claims for this year was done before January 1, 1981 and after August 31st, 1980. Limited drilling, if any, may be done before October 31st, 1981. Existing roads and drill site areas would be used in the event any more work is done.

Access Routes

Access to this property is from County roads and existing claim roads. No new roads or roadwork planned at this time.

Existing Disturbance

There is an old mine, numerous drill roads, drill sites, and mine haulage roads. There have been several hundred holes drilled on these claims.

Proposed Reclamation

If any exploration is done this year, and if any ground is disturbed, we will reshape it to the approximate contour of the surrounding ground where practical.
